

ICON™

Kimberly-Clark
PROFESSIONAL

Improving Patient Well-Being with the Restorative Attributes of Nature

Studies suggest that the display of visual art, especially images of nature, can have positive effects in healthcare settings.*

CUSTOM FACEPLATES

Endless patient engagement opportunities

With the **Kimberly-Clark Professional™ ICON™** collection, you can add a natural element to your facility's soap, hand sanitiser and paper towel dispensers and turn clinical spaces into soothing environments. ICON™ dispensers feature an interchangeable faceplate innovation which allows you to customise units with photography, graphics and more.

Potential outcomes include:

- Shortening patient stays
- Increasing comfort and pain tolerance
- Improving perceived quality of care
- Easing anxiety for both patients and staff
